EXPERIENCE

Kaidevs – Co-Founder ***June 2025 – Present***
Github link: https://github.com/Hello-Ica/kaidevs.git

- Co-founded KaiDevs, a web development service platform connecting clients with developers for custom website creation. Oversaw UI/UX design efforts by creating low and high-fidelity Figma prototypes and design systems. Managed client communication and engagement to understand project requirements and deliver tailored web solutions

PROJECTS

Whyte Cafe – Freelance Front End Developer ***February 2026 – Present***
Github link: https://github.com/Hello-Ica/whyte-cafe.git

- Collaborated on UI/UX design using Figma, contributing to layouts, visual elements, and overall interface improvements. Assisted in developing and refining the website's front-end interface, ensuring a responsive and user-friendly experience.

MindLobby – Undergraduate Thesis Project ***September 2025 – May 2026***
Github link: https://github.com/Hello-Ica/MindLobby.git

- Contributed to development of an AI-powered web platform by integrating OpenRouter API for automated quiz and flashcard generation, implementing document upload functionality, and developing core backend features. Platform evaluated by 50+ testers and certified to meet ISO 25010 software quality standards.

CERTIFICATION

TESDA National Certificate II in Computer Systems Servicing

- Issued on: April 23, 2025
- Valid Until: April 22, 2030

INTERNSHIP

University Of The Philippines Diliman – CSSP Computer Laboratory ***May 2025 – July 2025***

- Assisted in server migration to Ubuntu Linux and performed server setup, configuration, and maintenance in a Linux environment. Built and configured desktop systems, and supported the technical team in managing live streaming operations for seminars and events.

EDUCATION

Arellano University, Pasig Campus – College ***2022 – 2026***

- Graduated with a Bachelor of Science in Computer Science and consistently achieved Dean's List recognition for academic excellence throughout the program.
